

Those of you living in the Malcolm Road area, or visiting the Village Hall/Medical and Dental Centre, can hardly have failed to notice the new structure arising on the northern side of Malcolm Road. This is the new **Tangmere Medical Centre**, into which the existing Practice will move in late September/October this year.

The dentists will take over all of the existing premises, enhancing the services they can provide, whereas the doctors will consolidate the Practice under one roof, closing the Westgate branch.

This will provide more doctors and nurses in Tangmere, to offer a greater range of services than is currently achievable. For instance, we would hope to have surgeries running at most times of the day, for the greater convenience of everybody, still operating a **non**-appointment system which the large majority of patients prefer.

There would be space and opportunity to hold evening health-related meetings, open to all, and we are hoping to start a "Friends of the Medical Centre" group.

Further information can be obtained from the staff at the current centre, or by visiting our website

www.tangmeremedicalcentre.co.uk, where timings and timetables will be published as soon as they are known.
